Proposal

Group: 3C_04

Name of team: Dreamteam

Team members:
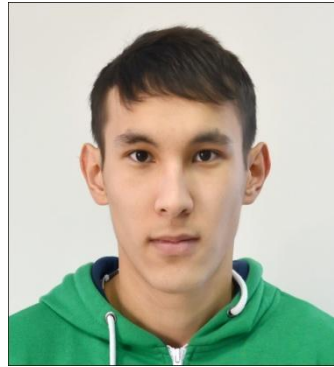

Khamza Ayan 11490	Aibek Zholdasbekov 11514	Akhmetbekov Chingis 11505	Kenzhegalin Serik 11487

Name of project: pizza service

Description: Our project will be used for people who wants to serve pizza from Internet by credit card

Languages/Platforms: Html, Css, J2EE, Windows 7, Database mysql, Aptana Studio 3, eclipse for j2ee developers

Complexity: We will make a site using Web programming and we also have database of all products. We try to make good design for this site because it is very important. And also use J2ee to work in server side.
